

Our Environment Policy

About us

We are engineering and innovation specialists, delivering cleantech and technical services to the water, waste, energy, power and marine sectors.

We provide technical engineering, design, installation and consulting services, delivering value engineered, robust yet appropriate and innovative services, solutions and products.

Our commitment

EcoGenR8 Limited, and our trading entities AFECO and Innov8 Products, are fully committed to reducing our environmental impact, protecting the environment, preventing pollution and to improving our environmental performance.

A copy of this Policy is displayed at our office, on our websites and is freely available on request.

The Management Team take full responsibility for ensuring this Policy is implemented. This Policy relates to the 2020 / 2021 financial year.

Abigail Field
Director
November 2020

Our responsibilities

As a Organisation, we recognise that our activities have the potential to result in the generation of waste and of emissions to air and water and we recognise our key impacts to be in the areas of:

- Office energy, equipment and consumables use
- Waste generation
- Environmental impact through our project and site activities

As an Organisation, we will:

- Comply with and, where possible, exceed all compliance, legislation and other pertinent requirements to reduce the environmental impacts of our business and operate in an environmentally responsible manner
- Ensure that Environmental Objectives are set, maintained and measured to continually improve our performance and protect the environment
- Control and conduct our business by means of a formalised system of modern environmental management in accordance with the requirements for ISO 14001:2015
- Ensure this Environment Policy is brought to the attention of all new and existing employees
- Ensure this Environment Policy is reinforced by management to ensure understanding and commitment throughout the Organisation
- Critically review this Environment Policy and our Environment Objectives annually to ensure suitability, efficacy and continuous improvement to enhance our environmental performance
